SOLUTIONS IN METAL

The ClimbTech™ Concrete MEGA Swivel rotates through 360° and the D ring pivots through 180° for maximum versatility. The Swivel Anchor is ideal for permanent or portable use for horizontal life line systems, tie-back, staging and rigging. This anchor is supplied with a CT108 Steel bolt with sleeve, which is suitable for use when fixing the anchor to concrete surfaces. This anchor should be placed in a 19mm (3/4") hole to accommodate the sleeve, and requires a minimum hole depth of 127mm (5").

Weight	544g (19oz)
WLL (single user)	140kg (310lbs)
WLL (two users)	181kg (400lbs)
Attachment eye Diameter	57mm (2 1/4")
Material	Zinc Plated Steel
MBS	44kN (10,000lbf)
Standards	OSHA 1926.502 CE 0321, ANSI Z359.1-2007, ANSI Z359.7-2011, EN 795:1996 (+A1:2000) Class B
